Partial Listing of Cement Plants From GRC Missions 176 and 180

<u>Location</u>	<u>Name</u>	<u>Description</u>	<u>Enlargements</u>
Chiang-Shan, Chekiang	Chiang-Shan Cement Plant	This plant appears to have, at least, two exposed rotary kilns and a rail served finished products section. One stack at the plant is smoking and therefore the plant was in operation at the time of photography. It is not possible to determine if this is the only stack associated with the plant.	CIA/PID/IB-P-820/63
Yung-Teng, Kansu	Yung-Teng, Cement Plant	No smoke can be seen coming from the two stacks associated with this plant but a small amount of dust is rising from the second from the left dust collector. The plant was, therefore, probably in partial operation at the time of photography.	CIA/PID/IB-P-821/63
Lo-Yang, Honan Lushan, Kiangsi	Lo-Yang Cement Plant Lushan Cement Plant	The camera was off over this area. None Plant was not covered on this mission. None	
Liu-Chou, Kwangsi Chuang Autonomous Region	Liu-Chou Cement Plant	The plant was not in operation at the time of photography and no new construction was apparent. The mottled tone of the plant area when compared to [redacted] coverage seems to indicate the plant is overgrown, possibly from disuse.	CIA/PID/IB-P-801/63
Ying-Te, Kwangtung	Ying-Te Cement Plant	Due to poor quality of the coverage of this plant its completion status can not be determined.	CIA/PID/IB-P-802/63

<u>Location</u>	<u>Name</u>	<u>Description</u>	<u>Enlargements</u>
Canton, Kwangtung	Canton Cement Plant	Smoke can be seen emitting from the stacks associated with the housed kilns and the exposed kiln. This plant, therefore, appears to have been fully operating at the time of photography.	CIA/PID/IB-P-803/63
Yung-An, Fukien	Yung-An Cement Plant	Since this plant has had no major construction activity. However, a few minor buildings have been added and some road changes were observed. The plant did not appear to be operating at the time of photography.	CIA/PID/IB-P-804/63
Nan-P'ing, Fukien	Nan-P'ing Cement Plant	Due to cloud cover this plant was not observed on this Mission	CIA/PID/IB-P-805/63
